“ I have been trying to find Mike for several years now. I grew up with him in Michigan and we were friends. I was able to contact his sister and she informed me that he had passed. I wanted to let him know how sorry I was that we drifted apart and how stupid I was to end our friendship over something so stupid. We should have stuck together. He was such a nice guy and vey smart. I missed out and am so very sorry for that. Your friend Keith.

“ When I last talked to Michael, he was hoping he had made a difference in people's life. I can say without a doubt that he did. He knew something about everything, not in the know-it-all-way, he just knew and shared valuable information. He was a sweet soul and I will miss him dearly.

“ *Michael was such a sweet man. He was passionate about his job, and his interests. It's a silly thing to hold on to, but when I was getting ready to start raising chickens, Michael talked to me a lot about keeping them, choosing breeds and things I needed to know. It means a lot to me that he would take his time to help me like that, about something non work-related, and I'll hold onto that memory of him. I'm glad I had something to help bond over with him, to help me get to know him better as a person, and not just a co-worker. My very deepest condolences to his family at this sad, sad time.* ”

“ To the family and friends of Michael Allen,  
My deepest and most sincere sympathies extend to all.  
I've known Michael for almost 20 years and spent 7 years next to him for 8 hours a day at our place of business. I have learned and gained so much from his genius and guidance that I cannot explain. He was an absolutely brilliant individual.  
He shared many stories and life experiences with me, as I did with him. His life in Michigan, His dog Mace and all the computer stories that will make you laugh hysterically.  
My memories go far and my thoughts come from within. I will miss Michael.  
My kindest regards,  
Loren Newby
